

RZ

LEXUS

WHEN DID A CAR LAST RAISE YOUR HEARTBEAT?

One that's stunning to look at and amazing to own. Rapid, all-electric, 100% Lexus Driving Signature. Available with visionary Lexus Steer-by-Wire, the RZ is designed to reignite your passion for driving.

Crafted by our "Takumi" artisans in Japan, this car welcomes you like no other. While radiant heaters keep you warm and cosy, sculpted seats embrace you around faster corners. Wherever you venture, you'll feel fresh and relaxed in the spacious cabin with its dimmable panoramic roof. Alongside the world-class build quality you expect from a Lexus, the RZ offers seamless charging and a 10-year battery guarantee.

Sound like the luxury SUV for you? Then come and discover the pure enjoyment of driving the all-electric RZ 350e, RZ 500e or RZ 550e F SPORT.

This is Lexus Electrified¹.

Lexus Electrified ¹ design	04-07

NEAR SILENT,
NEVER UNSEEN

BOLD, BOLDER, F SPORT

The RZ 550e F SPORT makes a bold statement for an all-electric car. Now available in Neutrino Grey, the F SPORT grade also has exclusive black aerodynamic elements - like a performance-enhancing front grille and rear spoiler - and you can't help but notice the 20" alloys with contrasting blue F SPORT brake calipers. These are fitted with resin covers that not only increase aerodynamic efficiency, but also reduce weight for better handling.

In short, we've designed the RZ the hard way, as we believe it's the only way.

“WE ARE NOT MAKING AN ELECTRIC CAR, WE ARE MAKING A LEXUS.”
Lexus International Chief Engineed, Shinya Ito.

PENCIL SKETCHES AND CLAY MODELS, OUR WAY TO GET YOU NOTICED

Electricity. You can't see it, hear it, or touch it. Perhaps that's why many believe that electric cars mark the end of driving pleasure. At Lexus, however, we see electrification¹ as a unique chance for even more fun. To achieve this, we've designed a car that not only looks amazing, but feels amazing to drive. (It even smells amazing, see page 12).

First came hundreds of pencil sketches, followed by hand crafting in clay, each iteration ensuring this is a car to get you noticed. Its sleek body and muscular flanks instantly tell you this is a luxury SUV, as does the plentiful space inside for you and your friends. Diamond-like headlights are underscored by Lexus signature daytime running lights, a bold feature inspired by Samurai swords. To the rear, an extra-wide LED light bar projects our latest 'Lexus Electrified' look.

¹ 'Electrified' and 'Electrification' refer to a range of powertrains, some of which still use petrol next to electricity.

JAPANESE ARTS AND CRAFT

BEHIND THE LUXURIOUS INTERIOR LIE THE UNIQUE SKILLS OF OUR TAKUMI ARTISANS

To slide inside the RZ luxury SUV is to steal a glimpse of a wonderful future. It starts with the unique 'In-ei' illumination that treats you to shimmering lighting effects. It carries through to the 'Tazuna' cockpit, aesthetic yet purposeful, with the layout of instruments positioned in your line of vision. Relax in the beautiful interior and appreciate the sustainable laser cut door trims and supple 'ultra-suede' seating in a cabin featuring vegan materials.

Amidst all the advanced technology, it's reassuring to sense the human hand. The world-class quality pervading the cabin, such as the hand-stitched steering wheel, can be attributed to our famed 'Takumi' craftspeople, their artistry honed over at least 15 years.

ENJOY AN 'OMOTENASHI' WELCOME

Comfort in the RZ is more than exquisite upholstery and a roominess which rivals that of larger flagship SUVs. It's 'Omotenashi', an ancient form of Japanese hospitality centred around anticipating a guest's needs. You sense it as the 64-colour ambient lighting welcomes you aboard, and Climate Control with nanoe™ X¹ keeps the cabin fragrant and your skin and hair hydrated. You see it in novel features like the smart glass, blue-tone panoramic roof, which is electronically dimmable.

You'll cherish every moment in your RZ, a tribute to the craftspeople who built it.

¹ nanoe™ marks are trademarks of Panasonic Holdings Corporation. Further information can be found at <https://www.panasonic.com/ph/air-solutions/nanoe.html>

LIGHTNING FAST,
LEXUS SMOOTH

CHARGED UP FOR HEARTBEATS

THE RZ TAKES TECH AND ALL-ELECTRIC EXCITEMENT TO THE NEXT LEVEL

The RZ's sleek, athletic shape hints at the drive ahead. Rapid linear acceleration awaits you, in an all-electric car sacrificing none of the refinement of a Lexus. Behind the wheel, you'll instantly feel the razor-sharp precision and effortless handling. It's what we call the 'Lexus Driving Signature', painstakingly crafted by our engineers and 'Takumi' master drivers. And you can enjoy it for up to 568 km¹ of range.

All-electric, all Lexus, the RZ is powered by a potent 77 kWh battery using the very latest lithium-ion technology that rewards you with thrilling high-speed performance. Combined with improved and super refined electric e-Axles, you'll experience a significant hike in performance in the RZ 350e, RZ 500e and a quantum leap in the RZ 550e F SPORT.

FASTER CHARGING, INCREASED RANGE

Importantly for your busy life, enhanced electric motors and a larger battery mean more range and shorter charging times. For added convenience, an onboard charger supplements the pre-conditioning system, so charging the RZ will take just 30 minutes. Regardless of temperature conditions.

¹ WLTP figures. For more information regarding the new WLTP test method, please visit: www.lexus.eu/wltp#nedc.

REDISCOVER YOUR LOVE FOR THE DRIVE IN THE RZ 550e F SPORT

A big step forward for our RZ range, the RZ 550e F SPORT deploys 408 DIN hp of near-instant power, allowing you to reach 100km/h in little over 4 seconds. Determined to make you smile, we developed Lexus Steer-by-Wire and updated DIRECT4 all-wheel-drive to create a breathtaking driving experience. The steering wheel was first introduced in the 1890s, and Lexus Steer-by-Wire is again set to revolutionize how you drive. Making tight city corners or mountain hairpins incredibly fast and fun – with no more crossed arms and U-turns with just 200° of steering input - it's also very safe. Without the traditional steering wheel rim, you also have a clearer view of instruments and the road ahead.

And there's more. With Interactive Manual Drive exciting all your senses, you'll feel more connected to your car than ever before, both emotionally and acoustically. Rediscover your passion for driving as you enjoy paddle shifts and the direct feel of a traditional 8-speed transmission.

Inside, your front seats feature sculpted sports seats that provide superior body holding during rapid cornering. Other highlights include an F SPORT steering wheel and aluminium pedals.

This car makes you feel alive. This is Lexus Electrified¹ at its most exhilarating.

¹ 'Electrified' and 'Electrification' refer to a range of powertrains, some of which still use petrol next to electricity. Discover more: www.lexus.eu/electrified

DIGITAL TRANSFORMATION

THE RZ IS RICH IN FEATURES TO MAKE
LIFE SAFER AND MORE CONVENIENT

The RZ sports all the safety and connectivity technology you would expect from Lexus. And more too. Witness the next-generation Lexus Safety System + that features levels of intelligent protection never seen before. Proactive Drive Assist, for example, is a Lexus-first which uses Obstacle Anticipation Assist, Deceleration Assist and Steering Assist to make your driving even safer.

Meanwhile, if the Driver Monitor detects you are drowsy or distracted at the wheel, it will emit an alert, or even decelerate and stop the RZ if required. This is in addition to an advanced Pre-Collision System which can detect motorcycles in daytime and bicycles/pedestrians at night.

You'll also appreciate the convenience and safety of Digital Panoramic View Monitor, providing a 360° view around and below the car to help you manoeuvre in tight spaces.

INTELLIGENT SAFETY TECHNOLOGY

The exclusive Safe Exit Assist function prevents the driver and passengers from opening the door in the event of traffic such as cars or cyclists approaching from the rear. Lexus estimates this system can help prevent more than 95% of the accidents caused by door opening.

PREMIUM MULTIMEDIA SYSTEMS

Inside the cabin, the extra-large 14" touchscreen is the digital hub for an array of exciting multimedia and connectivity features. Its high-definition screen is perfect for displaying your smartphone apps. The fast and intuitive Lexus Link Pro Multimedia on the RZ is all the more convenient when used with the intelligent Lexus Voice Assistant, which responds to natural voice commands.

RAISING THE STANDARD FOR CONNECTIVITY

The Lexus Link+ app enriches your life with the all-electric RZ. You can monitor the charge level and range of the RZ remotely, on your mobile.

Easy to use, you'll even receive a monthly overview of charging sessions. From the comfort of your home, use Remote Control to prepare your RZ with a pre-set air conditioning temperature or defrost the windscreen. With the app, you can also securely lock or unlock your car remotely - a perfect solution should you ever forget to lock your RZ.

Additionally, enjoy the Lexus Voice Assistant¹ and real-time traffic updates¹ with our cloud-based smart services.

¹ Included as part of Smart Services for the first 4 years of ownership, renewable thereafter on a subscription basis

Under no circumstances should Lexus Safety System + be used to replace your driving skills at the wheel. Please read the instructions very carefully before operating the system and remember the driver is always responsible for safety. Details of specifications and equipment are subject to change to suit local conditions and requirements. Please enquire at your local Lexus Authorised Retailer.

Screens shown in this brochure are based upon the latest available information at the time of publishing.

RZ 350e

Silky smooth to drive, the RZ 350e raises the bar for all-electric luxury vehicles. With 224 DIN hp/165 kW of power driving the front wheels, it offers acceleration of 0-100 km/h in 7.5 seconds and up to 568 km of range. In addition, your RZ will charge more quickly, thanks to the battery pre-conditioning system and a 22 kW AC onboard charger.

RZ 500e

Created for high-end luxury performance and equipped with new high-performance DIRECT4 all-wheel-drive, the RZ 500e delivers a total of 380 DIN hp / 280 kW, equally distributed to both front and rear e-Axles. You can accelerate from 0-100 km/h in 4.6 seconds, and enjoy a range of up to 500 km. For a revolutionary driving experience that is both precise and dynamic, both the RZ 500e and RZ F SPORT models are available with breakthrough Lexus Steer-by-Wire.

RZ 550e F SPORT

The RZ 550e F SPORT is the most powerful RZ model and truly amazing to drive. Delivering 408 DIN hp/300 kW, it can reach 100 km/h in just over 4.4 seconds. To meet our exacting F SPORT performance benchmarks, the suspension, Lexus-first Interactive Manual Drive and DIRECT4 all-wheel drive have all been tested and tuned by Lexus master drivers on our racetrack.

IMPROVED ALL-WHEEL-DRIVE

Even more fun to drive, the RZ 500e and RZ 550e F SPORT have front and rear e-Axles that work seamlessly with the DIRECT4 all-wheel drive. Around corners you'll enjoy this amazing Lexus technology which constantly balances the traction, delivering quieter and more efficient dynamic performance.

NEW BATTERY FOR MORE EXCITEMENT

The RZ's new electric drivetrain totally transforms the car's performance, range and real-life convenience. Breakthrough technology includes a new e-Axle with improved motor output and a significant reduction in energy losses. At the heart of the car is an upgraded lithium-ion battery with capacity increased to 77 kWh and a water-cooling system. Behind the wheel you've love the full-throttle acceleration and a faster, more responsive drive.

FASTER CHARGING, ONE MILLION KM BATTERY LIFE

Charging performance and convenience have been enhanced with AC onboard charging capacity doubled from 11 kW to 22 kW. For extreme weather conditions, pre-conditioning lets you charge in less than 30 min in all conditions, right down to -10° degrees. Finally, and perhaps most importantly, Lexus battery durability is industry-leading and supported by our 1 million km extended battery care program.

² Options may be shown and availability may differ in certain markets.

‘SEAMLESS E-MOTION’ DESIGN

Inspired by the “Seamless E-motion” design concept, the front of the RZ clearly positions it as an all-electric vehicle. The bold Lexus signature spindle shape is applied to the front of the vehicle, resulting in a simple form, which captures technological evolution, function and performance.

POWERFUL SILHOUETTE

The car’s flowing side profile peaks towards the rear, creating a powerful silhouette. From behind, the rear section affirms the RZ’s SUV qualities of comfortable space and strong driving capability. The long wheelbase adds to the impact, expressing the low centre of gravity and excellent balance. The wheels – standard 18” or 20” for higher grades – are placed at the corners of the car.

QUADRUPLE LED HEADLIGHTS

The headlights are unified with the spindle body. Sleek and ultra-slim, they add extra emphasis to the Lexus L-motif of the daytime running lights, while the principal headlight lamps and turn indicators are less prominent.

HIGH-TECH REAR

The RZ’s futuristic character is underlined by its sophisticated high-tech rear look. The split roof spoiler extends the design rearwards and contributes to the car’s stable performance. The elongated LED light bar across the width of the car is a hallmark of Lexus Electrified¹ design, reinforced by the distinctive Lexus badge.

DIMMABLE PANORAMIC ROOF

Sophisticated panoramic roof increases the feeling of space and light in the cabin. Its glass has a coating that reflects infra-red radiation and reduces heat on sunny days with its blue dimmable tone, while helping keep warmth inside the cabin in cold weather. Doing away with the roller shade saves weight which improves handling, and also allows for the widest panoramic roof in any Lexus.

¹ ‘Electrified’ refers to a range of powertrains, some of which still use petrol next to electricity. Discover more: www.lexus.eu/electrified

Background TBC

TAZUNA COCKPIT

The RZ’s cockpit represents a bold evolution of our Tazuna concept, bringing together the driver’s position at the wheel and the precise arrangement of the meters, controls and touchscreen display to create a space where only small hand and eye movements are required. The principle is inspired by the small adjustments of the reins (“Tazuna”) which a rider uses to control a horse.

ERGONOMIC DESIGN

The arrangement of the Head-Up Display and 14" multimedia display have also been optimised and the instrument panel set low, further improving the driver’s line of sight. Our designers also created a clean and minimalistic look. The centre console features a dial-type control for the shift-by-wire system, reflecting the overall design simplicity.

“OMOTENASHI” WELCOME

Our signature Omotenashi Japanese hospitality is demonstrated by the welcome sequence that starts when you approach the RZ. The door handle puddle lights and daytime running lights illuminate and as the door is opened, the instrument panel lights up. Switching on the car initiates a start-up animation with graphics and sound.

AMBIENT MOOD SELECTOR

The cabin is designed as a light and open space, enhanced by ambient lighting with a wide spectrum of colour variations to suit the mood of the journey. Another expression of the Lexus ‘Omotenashi’ hospitality, the Lexus Mood Selector allows occupants to tailor the RZ’s ambient lighting from a palette of 64 colours and bespoke illumination effects known as ‘In-ei’.

SEAT DESIGN

Comfort is addressed by details such as the design of the front seats, with particular attention paid to the cross-sectional shape and the bolsters. The seat construction sets the upholstery seams deeper in the structure, helping the occupant maintain a better posture. 8-way power adjustment, plus lumbar support, is available for the front seats on high grade models better posture and with less pressure when cornering.

VEGAN LEATHER / “ULTRASUEDE®” SEATS

RZ seats can be upholstered with Ultrasuede® and animal-free leather to support the low-emission lifestyles and voices of customers who are highly conscious of ethical living and sustainable environments.

AKQA

AKQA

Guest Kit image

The image shown is for illustrative purposes only and may not represent the European model.

RADIANT HEATER

Seamlessly integrated into the S-Flow climate control system, radiant heaters are positioned in front of the driver and front passenger, beneath the steering column and lower instrument panel. Provided in addition to seat heaters and a heated steering wheel, they help speed up warming for the driver and front passenger.

ADVANCED NOISE REDUCTION

To achieve our legendary cabin quietness and set a new benchmark for All-Electric refinement, acoustic-quality glass is used for the windscreen. Flush door mouldings and a twin-latch system for the bonnet further contribute to reducing intrusive noise in the cabin, while the wheel arch liners minimise the sound of water splash.

LEXUS LINK PRO MULTIMEDIA¹

Fast and easy to use, the extra-large 14" touchscreen comes with Lexus Link Pro Multimedia and embedded navigation. For maximum peace of mind in your all-electric RZ, once you've set a destination, Lexus Link Pro will locate and plan in suitable charging stations along the way. Using real-time data from your car's Battery Management System, dynamic EV routing continuously updates your journey, meaning you'll always charge at the optimal time and arrive at your destination with sufficient range. Use Smart Services to access cloud-based navigation or Lexus Voice Assistant¹ in your car's multimedia.

SMARTPHONE INTEGRATION

With wireless Android Auto[®] or wireless Apple CarPlay[®], the RZ allows you to easily display and access many of your smartphone's apps on the 14" touchscreen.

LEXUS LINK+ CONNECTED SERVICES

With the Lexus Link+ app, a new world of connectivity complements our unique 'Omotenashi' service experience. Its smart and bespoke features help you manage your car remotely, schedule a service or even improve your driving style. Transform every journey with your RZ, using services like:

- Battery Level: Monitor your car's battery level anytime, anywhere.
- Vehicle Status: Check the status of your vehicle, including doors, windows, and boot, at a glance.
- Driving Analytics: Gain insights on your performance and trip details, allowing you to manage your journey history and categorize trips as either private or business.
- Find my Car: Locate and navigate back to your parked Lexus, and share its location with friends & family.
- Send to Car: Plan your journey while you are away from the vehicle and send your destination to your Lexus, so it is ready for your next trip.

- Service and Maintenance: Manage your RZ's service and maintenance needs. And with Online Service Booking (OSB) you can easily schedule an appointment with your preferred dealer.
- Warning Lights (eCare): Receive detailed explanations of potential warning lights and malfunctions, along with guidance on the next steps.
- Remote Control³: Before starting your trip, remotely set the cabin temperature or lock and unlock your RZ, from the comfort of your home.
- Smart Digital key⁴: Smoothly unlock, lock and start your car and can be shared remotely between up to five people.

The suite of convenient services is available directly through the app – everything you need for a smarter, more connected driving experience.

LEXUS LINK+ CHARGING SERVICES

For a seamless electrified³ experience, you can monitor the charge level and range of your RZ remotely, on your mobile. Lexus Link+ locates charging stations across Europe, allowing you to check availability, charging speed and price. If you subscribe to the Lexus Charging Network⁵, you benefit from effortless integration across a wide range of providers. You can choose flexible tariffs and potential discounts, making EV charging more convenient and cost-effective.

LEXUS SMART SERVICES

As an RZ owner, you enjoy all the benefits of the Lexus Smart Services, including features such as:

- Cloud navigation: get real-time traffic information, on- and off- street parking availability, fixed speed camera alert
- Lexus Voice Assistant¹ : a Lexus tech breakthrough called "Hey Lexus" voice assistant understands natural language and the context of statements such as "I'm hungry" or "I'm cold" and can even recognise which front passenger is speaking.

¹ Included as part of Smart Services for the first 4 years of ownership, renewable thereafter on a subscription basis.
² Feature availability and vehicle specification may vary among models, grades and according to market availability.
³ Remote control features may not be available in your area due to local legislation. Please consult your Lexus retailer
⁴ Smart Digital Key will not operate if your vehicle is equipped with additional immobilizer device and if the immobilizer key is not present inside the vehicle.
⁵ Conditions may vary depending on your country availability.

Screens shown in this brochure are based upon the latest available information at the time of publishing.

AKQA

MULTI-INFORMATION DISPLAY

Integrated into the main driving instruments, the 7" colour TFT (Thin Film Transistor) display keeps you informed about all key data including safety warnings and navigation directions. For a more dynamic and engaging experience, the display will adjust its look and content depending on which mode you are in.

10" HEAD-UP DISPLAY

Vehicle data is projected in colour directly onto the windscreen via a large 10" Head-Up Display, which lets you check navigation, safety features, car information and audio settings without taking your eyes off the road ahead.

SOUND ENGINEERING / ACTIVE SOUND CONTROL

While the RZ's electric drivetrain produces less noise, its quiet performance often makes sounds from outside surroundings more noticeable. Thus the RZ's engineers and designers made it a priority to ensure the cabin environment was appropriately quiet. This included applying an advanced version of Active Sound Control, which now uses the car's audio speakers to produce sounds that stimulate an emotional connection between car and driver.

10-SPEAKER PREMIUM AUDIO

A 10-speaker premium audio system is fitted as standard on all grades. This features an FM RDS tuner, Digital Audio Broadcasting and Bluetooth connectivity and offers greater fidelity with large speakers in the front doors.

13-SPEAKER MARK LEVINSON® SOUND

The RZ's 13-speaker Mark Levinson® Premium Surround system is tailored to the acoustic properties of the cabin. Featuring a 224 mm subwoofer and 1,800 Watts of amplified power, it delivers a 12-channel amplifier sound to create a digital home-theatre experience with Clari-Fi™ that rebuilds sound lost in MP3 digital compression.

WIRELESS CHARGING / USB PORTS

A wireless charging tray is available, with 50% quicker charging performance. Convenience for everyone on board is addressed by five USB ports in the cabin, three on the front and two on the rear of the centre console.

Guest Kit image

The image shown is for illustrative purposes only and may not represent the European model.

Guest Kit image

The image shown is for illustrative purposes only and may not represent the European model.

LEXUS SAFETY SYSTEM +

DYNAMIC RADAR CRUISE CONTROL

This system uses the millimetre-wave radar sensor and a camera to detect the vehicle in front and maintain an appropriate distance. If the vehicle in front comes to a halt, the RZ will stop too. When the vehicle moves off again, you will too. It quickly recognises traffic cutting in front and, in conjunction with Lane Trace Assist, follows a more natural line through bends. And when following a slower vehicle, preliminary acceleration will be applied when you indicate to overtake.

ENHANCED PRE-COLLISION SYSTEM

Alongside detecting motorcycles during daytime, the Lexus Pre-Collision System allows more potential collisions to be avoided, such as at right / left turns, and with cut-in traffic. It can also recognise collision risks with oncoming traffic or crossing pedestrians when making a turn at a junction. The ability to avoid an impact is increased by Emergency Steering Assist.

FRONT CROSS TRAFFIC ALERT

The system assists in making driving safer at intersections by detecting approaching vehicles from left or right which might be hidden in blind spots and warns the driver via the Head-Up Display and the central multimedia display.

PROACTIVE DRIVING ASSIST

Featuring Obstacle Anticipation Assist, Proactive Driving Assist operates the brakes and steering wheel to help the driver avoid pedestrians, cyclists and parked vehicles. Deceleration Assist delivers smooth deceleration when the accelerator pedal is released, when approaching a curve or vehicle in front. The Steering Assist function assists the driver in not deviating from the driving lane. It detects straight driving and curves ahead and adjusts the steering assist force to facilitate proper steering.

LANE TRACE ASSIST

The advanced Lane Trace Assist helps keep the RZ in the centre of the lane using 'lane centring' and 'natural lane trace' functionality, and also provides assistance when driving around bends.

EXTENDED SAFETY PACKAGE / LANE CHANGE ASSIST

Alongside Lexus Safety System +, the RZ features an Extended Safety Package as standard. This includes Lane Change Assistance (LCA), which, once activated by the driver, provides automatic lane change steering on the motorway and Front Cross-Traffic Alert, which uses radar monitoring to warn the driver of traffic approaching from either side.

ADAPTIVE HIGH-BEAM SYSTEM

Fitted standard to Luxury grade models, the Adaptive High-beam System prevents the RZ from dazzling other road users. Independent LED chips in the headlights are enabled/disabled for precise control of the illuminated and non-illuminated areas.

ROAD SIGN ASSIST

The upgraded Road Sign Assist (RSA) recognises traffic signs and provides information to the driver via the multi-information display. When linked to Dynamic Radar Cruise Control, the car's speed can be adjusted according to the speed limit recognised by RSA.

Under no circumstances should Lexus Safety System + be used to replace your driving skills at the wheel. Please read the instructions very carefully before operating the system and remember the driver is always responsible for safety. Details of specifications and equipment are subject to change to suit local conditions and requirements. Please enquire at your local Lexus Authorised Retailer.

AIRBAGS

In addition to an immensely strong passenger safety cell, occupant protection is enhanced by advanced airbags: a dual-stage airbag and knee airbag for the driver; single-stage airbag for the front passenger; centre airbag to reduce contact between the driver and front passenger; side airbags on the front seats and curtain shield airbags that run the full length of both cabin sides.

BLIND SPOT MONITOR

Blind Spot Monitor detects vehicles in adjacent lanes that are not visible in the door mirrors up to 60 metres behind your RZ. If the driver indicates to change lane and a vehicle enters the blind spot, a warning signal appears in the relevant door mirror.

DRIVER MONITOR

Driver Monitor uses a camera mounted above the RZ's steering wheel to constantly check the condition of the driver. It is even able to slow or stop the car if the driver fails to react to alerts.

REAR CROSS TRAFFIC ALERT

Rear Cross Traffic Alert helps avoid parking collisions during low-speed reversing. The system monitors the area at the rear of the RZ and adjusts speed if it judges there is a possibility of contact with a vehicle.

ADVANCED PARK WITH REMOTE PARK

This breakthrough driver support feature gives you added peace of mind. At the press of a button, Advanced Park with Remote Park scans the space where you want to park and then manoeuvres you in automatically. It even allows you to save parking spaces that you use frequently.

DIGITAL PANORAMIC VIEW MONITOR

For easier driving in confined spaces, the Digital Panoramic View Monitor provides a live 360° view around and pre-recorded view under the car. It also creates a virtual 3D image of your RZ, with on-screen guides to assist close-quarter manoeuvring and offers the following features:

- Side Clearance View lets you check the clearance when passing another vehicle
- Cornering View helps avoid mounting curbs when cornering
- Front Cross Traffic Alert warns of approaching vehicles and obstacles
- Pre-Collision System & Parking Support Brake warns of a possible collision and will even take preventive action
- A view under the RZ helps you manoeuvre with confidence

DIGITAL REAR-VIEW MIRROR

The Digital Rear-View Mirror displays images from a camera at the rear of the car. This 2nd generation system features a lighter bezel, wider view and reduced blind spots. It also enhances your view when the rear seats are occupied, the luggage space is loaded to the roof, or weather and visibility are poor.

SAFE EXIT ASSIST

The RZ's e-Latch electronic entry and exit system is linked to the car's Blind Spot Monitor. The exclusive Safe Exit Assist function prevents the driver from opening the door in the event of traffic such as cars or cyclists approaching from the rear.

ULTRA-STRONG CHASSIS

The quality and characteristics of the RZ’s platform are the foundation for its Lexus Driving Signature. The platform is incredibly strong, with the battery unit integrated into the chassis, beneath the cabin. This also helps lower the car’s centre of gravity, which in turn means better balance, handling and response. High-strength materials and metals are used in the RZ’s construction, with advanced processes to ensure exceptional strength, while keeping weight down.

NEXT LEVEL' LEXUS DRIVING SIGNATURE

The latest RZ all-electric SUV takes our unique Lexus Driving Signature to the next level, and beyond. In our quest to deepen your driving enjoyment we left no stone unturned. Developed at our new test track and technical centre in Japan, our master drivers spent hundreds of hours pushing all models to the limit. Around a high-speed racetrack and sections replicating different road surfaces around the world.

'OMOTENASHI' FOR THE ROAD

The result of our team's dedication is nothing less than amazing. You'll feel this in the car's luxurious ride, yet equally in the exceptionally engaging and rewarding drive. In short, in true Omotenashi spirit, the RZ always understands your wishes - whether it be a smooth, near silent drive, rapid linear acceleration, or high-speed cruising.

DRIVE MODE SELECT / RANGE MODE

To help you maximise the car’s range potential, the RZ’s drive modes include a Range mode. This builds on the energy-saving performance of ECO mode by further adjusting vehicle settings such as speed or climate control limitations. Thanks to this focus, alongside optimised vehicle weight, battery power and performance, the RZ has a target consumption of 17 kWh per 100 km¹ for a RZ 350e with 18" wheels, making it one of the most efficient BEVs in its segment.

NEW DIRECT4 DRIVE CONTROL

We’ve also revised our DIRECT4 drive control technology, a Lexus system which gives you more traction and stability on the all-wheel drive models. At start-off and in straight-line acceleration, front/rear power distribution is controlled between 60:40 to 0:100 to suppress pitching and produce a direct acceleration feel. During cornering, the distribution ratio is optimised between 80:20 and 0:100.

E-AXLES

The compact Lexus e-Axle consists of a motor, gearing and control units. On the RZ 500e and RZ 550e F SPORT, they are used front and rear, together with the DIRECT4 to adjust the vehicle’s posture, traction and power distribution. On the latest models, the front and rear units both produce 165 kW, giving a total power output of 280 kW for the RZ 500e and 300 kW for the F SPORT model (the RZ 350e has 165 kW driving the front wheels).

¹ The electric range and electric energy consumption values are measured in a controlled environment on a representative production model, in accordance with the requirements of the new WLTP European Regulation EC 2017/1151 and its applicable amendments. For each individual vehicle configuration, the electric range and electric energy consumption values may be calculated based on the ordered optional equipment. The electric range and electric energy consumption values of your vehicle may vary from those measured or calculated values, as driving behaviour as well as other factors (such as road conditions, traffic, vehicle condition, tyre pressure, load, number of passengers, etc) have an influence on a car's electric range and electric energy consumption. 395 km is the range for a RZ 450e with 20" wheels. For more information regarding the new WLTP test method, please visit: www.lexus.eu/wltp#nedc

The images shown is for illustrative purposes only and may not represent the latest model.

LEXUS HOMECHARGE

The home charging solution makes charging your Lexus RZ simple and convenient. The sleek charger is fully integrated with the Lexus Link+ app and your Lexus, putting you in control wherever you are.

It allows you to do everything that you would expect from a connected charger (manage users, remote charging, track your charging sessions, etc.) Additionally, it allows you to smart charge: target a specific Vehicle State of Charge, set a charging schedule following dynamically¹ the daily energy tariffs of your location or schedule charging for off-peak hours, allowing you to reduce your energy costs.

Lexus HomeCharge is offered in multiple variants to meet your needs, whether you require single-phase or three-phase, and with or without a 4G connection.

CHARGING CABLE

When charging on the go, use this cable (available in 5 m or 7.5 m lengths) to connect your RZ to a public charging station.

¹ Depending on country availability and your energy contract.

CABLE STORAGE BAG

This practical storage bag keeps your charging cable in good condition and prevents it from getting tangled or cluttering your luggage space.

LEXUS GLOVE AND TOWEL SET

The Lexus glove and towel set allows for clean handling of the charging cable under different conditions (when the cable is dirty or it's raining outside). While the towel serves to wipe the charging cable clean and dry, the gloves protect your hands and let you handle the charging cable in a safe and hygienic manner. The set comes packed in a practical bag.

PROTECTION PACK

Protection films: Stone chips, UV rays, road salt, flying bugs – your vehicle’s paintwork is constantly under attack, spoiling its appearance and reducing your vehicle’s value. Now, you can maintain a showroom fresh appearance with Paint Protection Films. Virtually invisible when applied, they provide the ultimate in long lasting protection and are available for the most vulnerable areas of your vehicle.

Seatback protector: The Seatback Protector protects the back of the seat from dirt and spills when it’s folded down to load longer items. The textured surface helps to prevent items from shifting and sliding.

Trunk liner: Tailored to fit the boot of your vehicle and provide protection against dirt and spills. The design features a special anti-slip surface pattern to help stop luggage moving.

TRANSPORT PACK - CROSS BARS, ROOF BOX AND TOWING HITCH

The Lexus RZ Transport Pack is designed to expand your vehicle’s carrying capacity with elegance and ease. It includes sleek cross bars, a spacious roof box for added luggage, and a towing hitch for extra versatility on longer journeys.

Whether you’re heading out for a weekend adventure or a family holiday, this pack offers smart, secure solutions for transporting all your gear.

Cross Bars -Bike holder: For use with your car’s pre-fitted roof rails. The cross bars lock onto the rails and form a secure base for carrying a wide range of specialised attachments such as the bike holder. This lockable, lightweight holder has special grips to secure both the bicycle wheels and the frame.

PREMIUM TRUNK MAT, TEXTILE AND LEATHER

Shield your Toyota Lexus RZ trunk with our custom-fit trunk leather and textile mat, designed to guard against spills, dirt, and everyday wear. Made from durable, easy-to-clean materials, it offers a sleek look while keeping your cargo area pristine.

STYLE PACK

18" alloy wheel: The glossy black finish and high performance 5-spoke design create an unmistakable look of urban sophistication.

Premium floor mats (Textile + leather): Stylish textile and leather floor mats for dependable protection of your car’s carpets. Safety fixings hold the driver’s mat in place.

Illuminated scuff plates: Lexus scuff plates add a stylish design feature while also protecting the door sill paintwork. Their brushed aluminium finish is highlighted by subtle logo illumination.

BE OUR GUEST

HOW WE TREAT OUR CUSTOMERS IS
GUIDED BY AN ANCIENT JAPANESE
PHILOSOPHY OF HOSPITALITY.

Translated from the Japanese as ‘hospitality and polite service’, Omotenashi is about much more than excellence of service; it is an ancient concept centred around anticipating the needs of another, even before they arise. Omotenashi influences how we design and engineer our cars at Lexus, and equally how we treat you, the Lexus owner. Not just at the point of sale but over the life of your car. We want you to feel valued in every interaction you have with us. To feel more than a customer.

Whether as a private or fleet driver, you’ll experience Omotenashi each time you visit our showrooms. In the warm reception on hand from friendly staff intent on welcoming you as if you were a guest in their home. In the inviting atmosphere and impressive facilities of the lounge, where you can avail of refreshments, catch up on news, enjoy high-speed Internet or carry on with your work. And in the knowledge that our Lexus technicians are working with precision and efficiency to get you back on the road with minimum interruption to your day.

LEXUS RELAX¹

Lexus Relax provides you with complete peace of mind even after your manufacturer’s warranty expires. Drive away carefree with an extra 12 months warranty every year you service your Lexus with us.

LEXUS EASY MOBILITY SOLUTION¹

From financing to insurance, maintenance and even tyres, the Lexus Easy flexible mobility solution is the easy way to drive and look after a Lexus.

It’s not only cars that make Lexus unique. It’s the philosophy which permeates everything we do and which extends to an ownership experience that makes you feel special. Just as a guest should.

¹ Lexus Relax and Lexus Easy are not available for all markets. Please enquire at your local Lexus Authorised Retailer.

DISCOVER MORE ONLINE

Find out more about the RZ and even reserve your car online. Take time to explore which equipment grade best suits your lifestyle, learn about our world-class service and finance offerings and sign up to our regular newsletter. If you're interested in how the RZ feels to drive, you can also book a test drive online with your local Lexus Retailer.

Taking care of the environment is a priority for Lexus. We take many measures to ensure that during the lifecycles of our vehicles - from design, production, distribution, sales and service to end-of-life - their environmental impact is minimised. Your retailer will be happy to provide more information on end-of-life vehicle requirements.
